SUMMARY OF QUALIFICATIONS

Although I just completed my Software Engineering degree, I have 16 years of work experience where I've learned how to work with teams, speak to clients, lead projects and solve problems. I'm excited to begin a new career as a developer where I've truly found my calling as my classwork and grades reflect, with nearly a 4.0 gpa. I have a passion for developing and I'm ready to join a great organization where I can make strong contributions and grow my career.
